(a) Updates on the efforts taken to resolve each outstanding audit issue.

(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

This is not required for any audit issue that is a material uncertainty relating to going concern.

Not applicable as the Company's latest financial statements are not subject to an adverse opinion, qualified opinion or disclaimer of opinion.

4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

Save as disclosed in paragraph 5, the Group has applied the same accounting policies and methods of computation in the financial statements for the current financial year as compared to those applied in the audited financial statements for the financial year ended 31 December 2018.

5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group has adopted all applicable new and revised Singapore Financial Reporting Standards (International) ("SFRS(I)") and Interpretations of Singapore Financial Reporting Standards ("SFRS(I) INT") which became effective for accounting periods beginning on or after 1 January 2019.

SFRS(I) 16 Leases ("SFRS(I) 16")

SFRS(I) is effective for financial years beginning on or after 1 January 2019.

Under the new standard, an asset representing the right to use the underlying asset during the lease term (i.e. the right-of-use asset) and a liability to make lease payments (i.e. the lease liability) are recognised. Interest expense on the lease liability and the depreciation expense on the right-of-use asset are recognised separately in profit or loss.

The Group has applied the modified retrospective approach and does not restate comparative amounts for the year prior to first adoption.

In addition, the Group has elected practical expedients to apply the exemption not to recognise right-of-use asset and lease liabilities to leases for which the lease term ends within 12 months as of 1

January 2019 and to apply a single discount rate to a portfolio of leases with reasonably similar characteristics.

On the adoption of SFRS(I) 16, the Group measured lease liability based on remaining lease payments discounted using the incremental borrowing rate at the date of initial application, 1 January 2019. Right-of-use asset was measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

On the adoption of SFRS(I) 16, the Group recognised right-of-use assets of S\$0.21 million and lease liabilities of S\$0.21 million for its leases previously classified as operating lease as of 1 January 2019.

6 Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.

REVIEW OF THE GROUP'S PERFORMANCE

Revenue

Revenue increased by 13.4% or S\$0.17 million, from S\$1.27 million in FY2018 to S\$1.44 million in FY2019, due mainly to an increase in the sales of our ClearCell® FX1 System and related consumables as a result of an expanded customer base contributed by laboratories that collaborated with the Company to develop cancer diagnostics tests.

Other income

Other income increased by 233.8% or S\$0.15 million, from S\$0.07 million in FY2018 to S\$0.22 million in FY2019, due mainly to interest income on fixed deposits placed with the banks in FY2019.

Changes in Inventories

We recorded an increase of approximately S\$0.07 million in the closing balance of our inventories in FY2019, as compared to a decrease of S\$7,000 in FY2018. The fluctuations in the balance of our inventories were due mainly to the timing of purchase and sale of inventories.

Purchases

Our purchases increased by 43.0% or S\$0.17 million from S\$0.38 million in FY2018 to S\$0.55 million in FY2019, due mainly to the increase in purchases made for our ClearCell® FX1 Systems and related consumables in anticipation of higher demand in view of our collaborations with various partner laboratories to develop cancer diagnostics tests.

Employee benefits expense

Employee benefits expense increased by 13.2% or S\$0.18 million, from S\$1.33 million in FY2018 to S\$1.51 million in FY2019. This was mainly due to payment of directors' fee during FY2019 after the listing of the Company.

Depreciation expense

Depreciation expense increased by 64.1% or S\$0.23 million, from S\$0.36 million in FY2018 to S\$0.59 million in FY2019, due mainly to the adoption of SFRS(I) 16 resulting in recognition of depreciation expense on the right-of-use assets and depreciation charged on property, plant and equipment purchased during the year.

Amortisation expense

Amortisation expense remained relatively stable at S\$0.03 million and S\$0.05 million respectively, in FY2018 and FY2019.

Research and development (“R&D”) expense

R&D expense increased by 14.9% or S\$0.16 million, from S\$1.07 million in FY2018 to S\$1.23 million in FY2019, due mainly to the increased efforts by the Company to collaborate with partner laboratories to develop cancer diagnostics tests.

Change in fair value of financial liabilities designated as FVTPL

Change in fair value of financial liabilities designated as FVTPL pertains to the fair valuation of convertible loans. These convertible loans were fully converted into ordinary shares in FY2018.

Other expenses

Other expenses decreased by 25.8% or S\$0.91 million, from S\$3.52 million in FY2018 to S\$2.61 million in FY2019. The decrease was due mainly to the following:

- (i) a one-off expense in FY2018 pertaining to the professional fees and other miscellaneous expenses incurred pursuant to the listing and initial public offering (“**IPO**”) of the Company’s shares on the Catalist Board amounting to S\$1.12 million; and
- (ii) a S\$0.07 million decrease in intangible assets written off; and
- (iii) a S\$0.18 million decrease in clinical studies as a result of the completion of a collaboration with Institute of Cancer Research: Royal Cancer Hospital in FY2018.

This was partially offset by a S\$0.46 million increase in travel expenses in line with the increase in sales and marketing efforts and increase in activities relating to collaboration with partner laboratories to develop cancer diagnostics tests.

Finance costs

Finance costs in FY2019 pertains to interest from lease liabilities. In FY2018, the finance costs pertain to interest expense accreted on the redeemable convertible preference shares, which were fully converted into ordinary shares in FY2018.

Loss for the year

As a result of the foregoing, loss for the year decreased by 23.1% or S\$1.44 million, from S\$6.25 million in FY2018 to S\$4.81 million in FY2019.

REVIEW OF THE GROUP'S FINANCIAL POSITION

Current assets

The Group's current assets decreased by 41.8% or S\$5.54 million, from S\$13.26 million as at 31 December 2018 to S\$7.72 million as at 31 December 2019, due mainly to cash used in the Company's operating activities and purchase of property, plant and equipment.

Non-current assets

The Group's non-current assets increased by 105.0% or S\$0.97 million, from S\$0.93 million as at 31 December 2018 to S\$1.90 million as at 31 December 2019, due mainly to an increase in property, plant and equipment of S\$0.39 million and the recognition of S\$0.60 million in right-of-use assets following the adoption of SFRS(I) 16.

Current liabilities

The Group's current liabilities decreased by 7.3% or S\$0.11 million, from S\$1.53 million as at 31 December 2018 to S\$1.42 million as at 31 December 2019, due mainly to a decrease in other payables of S\$0.42 million as a result the settlement of accrued professional fees and expenses incurred in relation to the IPO. This was partially offset by (i) an increase in trade payables of S\$0.22 million due to an increase in purchases of inventories closer to the end of FY2019; (ii) an increase in lease liabilities of S\$0.14 million following the adoption of SFRS(I) 16.

Non-current liabilities

The Group's non-current liabilities increased by 332.7% or S\$0.34 million, from S\$0.10 million as at 31 December 2018 to S\$0.44 million as at 31 December 2019, due mainly to an increase in lease liabilities of S\$0.40 million following the adoption of SFRS(I) 16.

REVIEW OF THE GROUP'S CASH FLOW STATEMENT

Cash outflow before movements in working capital amounted to S\$4.11 million in FY2019. Net cash used in working capital amounted to S\$0.46 million due mainly to a decrease in other payables of S\$0.52 million, a decrease in contract liabilities of S\$0.11 million and an increase of inventories of S\$0.35 million, and partially offset by interest income of S\$0.11 million received, a decrease in trade receivables of S\$0.23 million and an increase in trade payables of S\$0.22 million.
